

Embedded and Real-Time System Technology Seminar

**FREE one-day
technology seminar**

Bringing the most up-to-date and in-demand information about the real-time and embedded computing worlds to the engineering community.

This workshop is a technical seminar designed for engineers and managers developing computer systems for military and aerospace, industrial control, telephony and data communication, embedded appliances, data conversion, process control, and/or image processing. Presentations will be in the morning followed by a luncheon, with networking and corporate exhibits in the afternoon.

**Presented by
Dalhousie University
in partnership with
NRC-IRAP.**

**Thursday, November 18th, 9:00 a.m. to 3:00 p.m.
Participants MUST register in advance by Friday, November 12th
Royal Nova Scotia Yacht Squadron, 376 Purcell's Cove Road**

For information or to register, contact Jeanne Mutch at Dalhousie University
Phone: (902) 494-3509 Fax: (902) 494-5189 Email: jemutch@dal.ca

Advance registration only. Deadline is Friday, November 12th.
